

Day 6 - Deployment Preparation and Staging Environment Setup

Deployment Details

The marketplace project has been successfully deployed to a staging environment. The environment variables were configured securely, and the deployment platform used is Vercel. Below are the deployment and environment variable details along with the screenshots for reference.

Environment Variables

The following environment variables were configured securely within the Vercel platform:

- NEXT_PUBLIC_SANITY_PROJECT_ID
- NEXT_PUBLIC_SANITY_DATASET
- SANITY_ACCESS_TOKEN

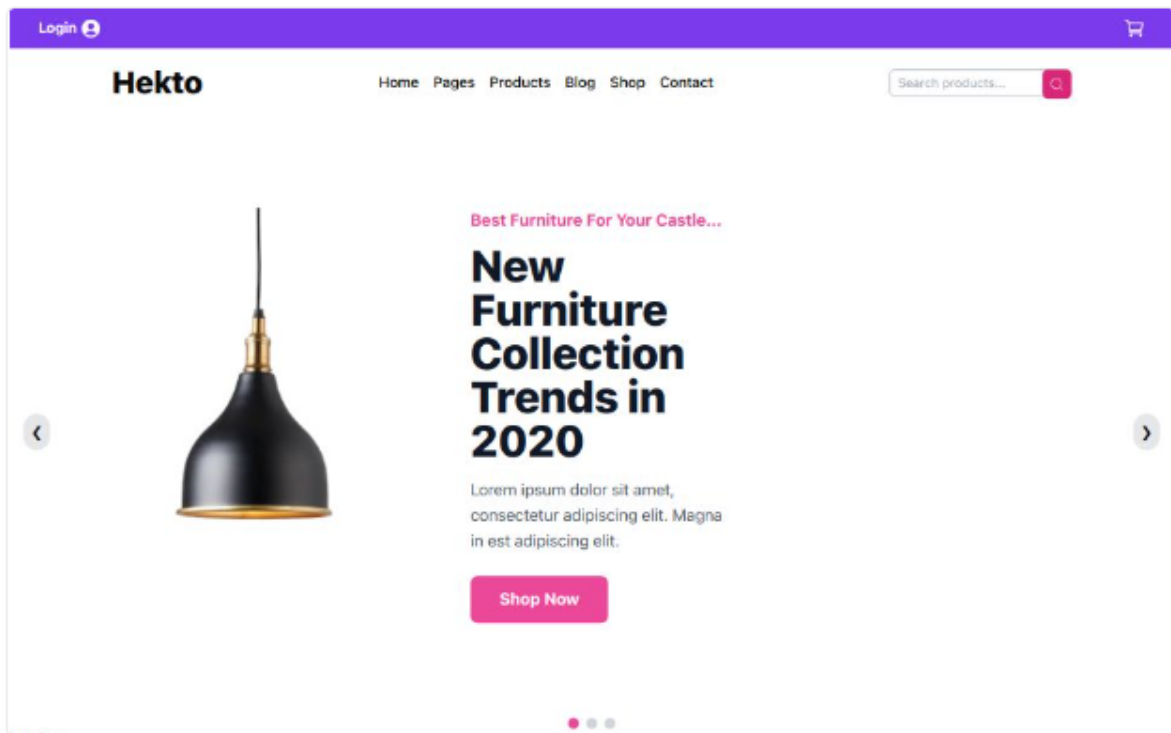

These ensure secure integration with the Sanity CMS backend.

Screenshots

1. Deployment Success Screenshot:

Congratulations!

You just deployed a new project to  Sheharyar Khan's projects.

Next Steps

-  **Instant Previews**
Push a new branch to preview changes instantly
-  **Add Domain**
Add a custom domain to your project
